

## Dr Maryam Al-Ejji Research Assistant Professor

**Dr Maryam Al-Ejji** obtained her PhD from Imperial College, London (2020) in materials science and engineering. She has research experience five years in various fields, such as nanomaterials, polymers, composites, and many versatile applications. Dr Al-Ejji's research activities have received more than 650,000 USD in the past few years. Her research interests include polymer membranes, composites, nanomaterials synthesis, characterization, and environmental applications.
