

Dr Maryam Al-Ejji

Research Assistant
Professor

Dr. Maryam Al-Ejji obtained her Ph.D. in materials science and engineering from Imperial College, London, in 2020. She holds the Arab League Educational, Cultural, and Scientific Organization (ALECSO) Water Chair, which commenced in 2024. Her research interests include 3D-printed fabrication of membranes, nanomaterials, nanocomposites, and polymer composites and their versatile applications. In the past few years, Dr. Al-Ejji's research activities have received over \$650,000 in funding.
